

IN SEMILLAS FITÓ TURFGRASS TRIAL FIELD,
A WIDE RANGE OF C3, C4
AND MIXTURES ARE CONTINUOUSLY BEING TESTED.

OUR QUALITY SELECTION STANDARDS
ARE BEYOND REGULATION:

LOT SELECTION CRITERIA:

STANDARD: It meets EU standards.
SOD: Fullfills SOD quality standards.
PREMIUM A: Free of weeds and other seeds in a 10x sample size.

PREMIUM B: Free of Poa annua and Lolium multiflorum in 10x sample size.
EXTRA: Free of Poa annua in 10x sample size.
PLUS: Free of Lolium multiflorum in 10x sample size.

HIGH
PERFORMANCE
TURFGRASS
SEEDS

VARIETIES

COOL SEASON GRASSES (C3) (Seeded)

AGROSTIS STOLONIFERA (Creeping bentgrass)

For greens, tees and fairways

Medium colour and high density:

TOUR PRO - Next generation with less inputs.

LUMINARY - Excellent performance across multiple regions.

VALDERRAMA **NEW** - Best dollar spot tolerance. High salt tolerance.

Dark colour and high density:

T-1 - Easy maintainance.

Medium colour and moderate density:

007DSB - Reduced fungicide use.

AGROSTIS TENUIS (Colonial bentgrass)

ABERROYAL - Suitable for greens in mild climate regions. Top resistance to fusarium patch.

FESTUCA OVINA (Sheep fescue)

ABERFLEECE **NEW** - Minimum mowing requirements. For rough on golf courses.

FESTUCA TRACHYPHILLA (Hard fescue)

SPARTAN 2 - Sustainable grass with minimum maintenance. For rough on golf courses.

FESTUCA RUBRA TRICHOPYLLA (Slender creeping red fescue)

JOPPA **NEW** - Salt resistant with medium colour.

FESTUCA RUBRA COMMUTATA (Chewing fescue)

ZODIAC - Ideal for shade and mixtures in mild climates conditions.

FESTUCA RUBRA (Creeping red fescue)

RUFI - Elegant, fine textured and traffic tolerant.

FINE PRO **NEW** - Fine texture and traffic tolerant.

FESTUCA ARUNDINACEA (Tall fescue)

Finest leaf textures and highest density

GENIUS (RC4) - Outstanding tolerance to brown patch and grey leaf spot, and excellent drought resistance.

HONEYMOON (RHL2) - Finest leaf texture and maximum brown patch tolerance.

TANK **NEW** - Traffic resistant tall fescue.

With rhizomes and fine leaf texture

TERRANO - Generation with spreading ability.

BIZEM - Excellent persistence and density. Brown patch tolerant. Finest leaf texture.

FESNOVA - Excellent summer performance.

Semi-dwarf with medium leaf texture

FIRACES - Easy maintainance and resitant.

MERIDA - Vigorous semi-dwarf.

POA PRATENSIS (Kentucky bluegrass)

Midnight type

PRAFIN - Heat and disease tolerant. Excellent under stress conditions.

American type

JERSEY **NEW** - Germinates in 7 days. Light colour.

FIELD PRO **NEW** - Germinates in 7 days. Dark colour.

Texas & Midnight type

BLUE GEM **NEW** - Highest density and drought tolerant.

America x Shamrock type

STRENUUS - Germinates in 7 days. High density.

POA TRIVIALIS (Smooth stalked meadow grass)

QUASAR - Excellent winter growth.

WINTERWAY - Fast establishment.

POA BULBOSA

RADIX 307 **NEW** - Self dormancy regulated by temperature.

LOLIUM PERENNE (Perennial ryegrass)

With creeping ability, dark green colour and grey leaf spot tolerant

GREENLAND - Great persistency and salt tolerant.

PROCESS (PPG 422) **NEW** - Traffic tolerant with high density.

RINOVO - High density and persistency.

With creeping ability and light green colour

ZURICH - High density. Excellent winter growth.

GREENSPREAD **NEW** - Self regenerating ryegrass for winter sports.

With dark green colour and high density

RINGLES - Excellent for overseeding.

SUN - Fast germination. Easy transition.

With medium green colour and high density

LOVER - Quick recovery from traffic.

Tetraploid variety (4N)

TREK **NEW** - Tetraploid (4N) perennial ryegrass. Fine leaf texture.

LOLIUM MULTIFLORUM (Annual ryegrass)

THUNDER - The new generation of annual ryegrass with ideal genetics.

TOURS **NEW** - Best density and dark colour.

WARM SEASON GRASSES (C4) (Seeded)

CYNODON DACTILON (Bermudagrass)

GOBI. Very fast germination.

IBIZA. New generation with faster germination and better overall quality.

MEDPRO SLT **NEW**. High salt tolerance.

PASPALUM VAGINATUM (Seashore paspalum)

PURE DYNASTY. Platinum TE quality in seed. Salt tolerant.

PASPALUM NOTATUM (Bahia grass)

PENSA PRO **NEW**. Maximum drought tolerance.

PENNISETUM CLANDESTINUM (Kikuyu)

AZ-1. Recommended for tees and fairways. Creates less thatchy.

KENYA **NEW**. Very fine leaf texture.

ZOYSIA JAPONICA (Japanese grass)

ZENITH. Minimum irrigation and mowing requirements.

ZENPRO **NEW**. Minimal mowing and watering.

AXONOPUS FISSIFOLIUS (Carpetgrass)

BRASIL PRO **NEW**. Shade tolerant and low maintenance needs. For acidic soils.

STENOTAPHRUM SECUNDATUM (San augustine grass)

GRAPRO **NEW**. Very shade tolerant. Medium leaf texture.

DACTYLOCTENIUM AUSTRALE (Durban grass)

LM. The best solution for shade conditions in warm season grasses.

HIDROSEEDING MIXTURES

MEDITERRANEAN MIXTURE

Native species to be added: *Antyllis cytisoides*, *Cistus albidus*, *Lygeum spartium*, *Piptatherum milliaceum*, *Psoralea bituminsa*, *Retama sphaerocarpa*, *Stipa tenacissima*.

25% *Lolium perenne*
20% *Agropyrum elongatum*
20% *Festuca arundinacea*
15% *Dactylis glomerata*
10% *Onobrychis viciaefolia*
5% *Cynodon Dactylon*
5% *Medicago Sativa*

CONTINENTAL MIXTURE

Native species to be added: *Cistus clusii*, *Lavandula officinalis*, *Rosmarinus officinalis*, *Spartium junceum*, *Thymus vulgaris*.

20% *Lolium perenne*
15% *Agropyrum elongatum*
20% *Festuca arundinacea*
10% *Dactylis glomerata*
15% *Festuca rubra rubra*
5% *Lotus corniculatus*
5% *Trifolium subterraneum*
5% *Melilotus officinalis*
5% *Onobrychis viciaefolia*

OCEANIC MIXTURE

Native species to be added: *Cytissus scoparius*, *Genista scorpius*, *Spartium junceum* and *Ulex europaeus*.

20% *Lolium perenne*
25% *Dactylis glomerata*
25% *Festuca rubra rubra*
10% *Festuca ovina duriviscula*
5% *Sanguisorba minor*
5% *Agrostis tenuis*
5% *Trifolium repens*
5% *Melilotus officinalis*

HIGH MOUNTAIN MIXTURE

20% *Lolium perenne*
25% *Dactylis glomerata*
25% *Festuca rubra rubra*
15% *Fleo pratensis*
5% *Agrostis tenuis*
5% *Trifolium repens*
5% *Melilotus officinalis*

SKI RESORT MIXTURE

24% *Lolium perenne*
25% *Dactylis glomerata*
25% *Festuca rubra rubra*
15% *Fleo pratensis*
5% *Agrostis tenuis*
5% *Trifolium repens*
1% *Achillea millefolium*

MIXTURES

SUSTAINABLE WITH LOW WATER NEEDS

COSTA. For heat, drought and salinity conditions.

35% *Festuca arundinacea* BIZEM
35% *Festuca arundinacea* MERIDA
10% *Poa pratensis* PRAFIN
10% *Lolium perenne* SUN
10% *Cynodon dactilon* GOBI

RESISTENTE. Resistant.

35% *Festuca arundinacea* FESNOVA
30% *Festuca arundinacea* GENIUS
30% *Festuca arundinacea* MERIDA
5% *Poa pratensis* PRAFIN

SPARRING. Compact and persistent.

30% *Festuca arundinacea* GENIUS
30% *Festuca arundinacea* TANK
20% *Festuca arundinacea* BIZEM
10% *Lolium perenne* RINOVO
5% *Poa pratensis* PRAFIN
5% *Poa pratensis* JERSEY

RÚSTICO. Good quality/price ratio. Low maintenance.

40% *Festuca arundinacea* FIRACES
40% *Festuca arundinacea* MÉRIDA
10% *Lolium perenne* RINGLES
10% *Lolium perenne* LOVER

STRONG. Outstanding generation of tall fescues for sport.

50% *Festuca arundinacea* BIZEM
25% *Festuca arundinacea* GENIUS
25% *Festuca arundinacea* FESNOVA

FOR HIGH MAINTENANCE, TRAFFIC, SPORT FIELDS AND FINE LEAF TEXTURE LAWNS

SPORT. Traffic resistant.

25% *Lolium perenne* PROCESS
25% *Lolium perenne* GREENLAND
20% *Lolium perenne* RINOVO
10% *Poa pratensis* FIELD PRO
10% *Poa pratensis* PRAFIN
10% *Poa pratensis* STRENUUS

SPORT BLUE. Innovation for soccer pitches.

30% *Poa pratensis* PRAFIN
25% *Poa pratensis* FIELD PRO
20% *Poa pratensis* JERSEY
25% *Poa pratensis* STRENUUS

SPORT LIGHT. Traffic tolerant with light colour.

35% *Lolium perenne* ZURICH
35% *Lolium perenne* GREENSPREAD
30% *Poa pratensis* JERSEY

WITH FINE LEAF TEXTURE AND FAST ESTABLISHMENT

ORNAMENTAL. Fine-textured.

30% *Festuca rubra rubra* RUFI
25% *Lolium perenne* RINGLES
25% *Lolium perenne* SUN
10% *Fest. rubra rubra* FINE PRO
10% *Poa pratensis* PRAFIN

FOR SHADE

SOMBRA. For shade conditions.

40% *Festuca rubra rubra* RUFI
20% *Festuca rubra commutata* ZODIAC
20% *Festuca rubra trichophylla* PINAFORE
20% *Lolium perenne* RINGLES

FOR SEEDING AND OVERSEEDINT

CREEPING RYE. 100% regenerating perennial ryegrass blend.

40% *Lolium perenne* PROCESS
30% *Lolium perenne* GREENLAND
30% *Lolium perenne* RINOVO

LIGHT RYE. 100% perennial ryegrass with light green colour and spreading ability.

50% *Lolium perenne* ZURICH
50% *Lolium perenne* GREENSPREAD

REPOBLADOR. Fast establishment and easy maintainance.

40% *Lolium perenne* RINGLES
30% *Lolium perenne* LOVER
30% *Lolium perenne* SUN

RESIEMBRA. Fast establishment and easy maintainance.

40% *Lolium perenne* RINGLES
30% *Lolium perenne* SUN
30% *Lolium perenne* LOVER

FOR WINTER OVERSEEDING

FAST. Quick establishment at low temperatures.

50% *Lolium multiflorum* THUNDER
50% *Lolium perenne* SUN

FOR MINIMUM MAINTENANCE

SPARRING NITRO. Without fertilization needs.

85% *Festuca arundinacea* MERIDA
10% *Lolium perenne* RINGLES
5% *Trifolium repens* PIPOLINA

NATURAL MEADOW.

45% *Festuca arundinacea*
25% *Festuca rubra rubra*
15% *Lolium perenne*
10% *Trifolium repens*
5% *Cynodon dactylon*

RUSTIC LOW **NEW**. Low maintenance and drought resistant.

50% *Paspalum notatum* PENSA PRO
50% *Festuca arundinacea* MERIDA

WILD FLOWERS MIXTURES. Spots of colour.

Tall size mixture, Dwarf size mixture (to be used alone or mixed with our standard blends to add different colours)

GRASS SCATTERED WITH FLOWERS. Colourful landscape.

Tall growth mixture and dwarf size mixture.
